

BLS/ACLS courses for non-hospital facilities privileging applications and medical staff renewal

A purple square graphic with the text "NHMSFAP Update" in white, bold, sans-serif font. The text is centered within the square.

NHMSFAP Update

Beginning January 1, 2022, basic life support (BLS) and advanced cardiac life support (ACLS) courses must have a hands-on component and any course that is entirely online will not be acceptable. This applies to initial applications as well as renewal for current medical staff.

Current BLS and ACLS are a requirement for medical staff working in non-hospital facilities. Current is defined as two years from the date the course was taken.

The [Emergency Training Requirements](#) policy outlines exemptions and requirements.
