

DRAFT BYLAWS OVERVIEW

Permits

Under the new bylaws related to permits for health profession corporations:

- A Permit Committee may review, renew or revoke applications for health profession corporations.
- The bylaws must establish application and annual fees for health profession corporation permits in schedules.
- All legal and beneficial owners of the voting shares in a holding company that owns non-voting shares in a health profession corporation are practising licensees.

Other than that, there are no substantive content changes proposed in the new bylaws related to health profession corporation permits that differ from the relevant bylaws under the *Health Professions Act*.

The full part of the draft bylaws is available on the [CPSBC website](https://cpsbc.ca).
