[Using the Physician Directory \[1\]](#)

My physician has moved, but the address online is still showing the old address where s/he used to work. How do I find this physician?

My doctor is a podiatrist, chiropractor, optometrist, or psychologist. Why can't I find him/her in the online physician directory?

How can I find a physician who specializes in a particular procedure?

Why can't I find specialists who are accepting new patients?

How do I find a new family physician in my community?

How do I find a walk-in clinic or other health services in my area?
