[Walk-in Clinics \[1\]](#)

Can I insist that a particular physician working at a walk in clinic become my dedicated GP?

I was just discharged from hospital on blood thinners. When I left the nurse told me to follow-up with my family physician. I have attended a walk-in clinic in my neighborhood regularly for years for all of my care and I don't have a dedicated family physician. What should I do?

Can I insist on becoming a clinic patient at my very first visit?
