NHMSFAP  
Update

## [Important updates to the NHMSFAP standards \[1\]](#)

The Non-Hospital Medical and Surgical Facilities Accreditation Program (NHMSFAP) Committee is pleased to announce the posting of the following updated accreditation standards:

- Allografts (formerly Bone, Bone Products, Cells and Tissues)
- Blood Products and Blood Components (formerly Blood, Blood Products and Artificial Colloids)
- Laser Safety
- X-ray and Radiation Safety

These updates ensure that accreditation standards remain current with provincial, national and international regulations and standards. Since facilities accredited by the NHMSFAP Committee are assessed according to these standards, medical directors are strongly encouraged to review the updates and ensure their facility is compliant.
